

STATEMENT OF CONFORMITY

Company TECNOCAP s.r.o.
Address Strážovice 67, 378 53 Strmilov
Phone no. 00420384373121
Fax no. 00420384393333
e-mail info@tecnocapclosures.com
Web site www.tecnocapclosures.com

Subject: Tecnocap caps (range from 33mm to 110 mm) lined with with compound mod. TPE (pasteurization process)

The caps in subject are suitable for:

- Condition of use: heat treatment of pasteurisation, up to 100°C for 1 h, and shelf life up to 36 months
- Food category: Products listed in Annex to 85/572/EC with exception of fatty foods or containing oil

TECNOCAP[®] Closures, with regard to the subject, declare that:

- All the caps of its production are suitable and hygienically safe for sealing of glass jars for alimentary use, when these are filled and processed correctly.
- All the materials employed (metal, lacquers, enamels and compound) correspond completely to the European directives 2002/72/EC, 2007/19/EC.
- Tecnocap caps comply with directives 1935/2004/EC, 2023/2006/EC and 1895/2005/EC.
- Tecnocap compounds complies with 2002/72/EC, amended by 2007/19/EC
- Tecnocap compounds are in compliance with EU Regulation 372/2007, amended by 597/2008.
- Tecnocap compounds are free from phthalates and adipates (as DEHA), 2-EHA-free and SEM-free (2004/1/EC).

For used substances which are subject to a restriction and/or specifications in food or for which purity criteria in accordance with Directives 95/31/EC, 95/45/EC and 96/77/EC exist are listed as follows:

CAS No.	Name	Restrictions/specifications	Result
08013-07-8	ESBO	60 mg/kg or 10 mg/dm ²	< 20 mg/kg

A total migration test has been carried out according to the guidelines laid down in Directive 82/711/EC with amendments (Directive 93/8/EEC and 97/48/EC) and Directive 85/572/EEC

Simulant	Acid acetic solution 3%
Test Condition	1h at 100°C + 10 days at 40°C
Result	<40 mg/Kg

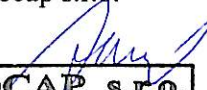

Note: This Statement of Conformity, with regard of information related to Global and Specific migration, is generated in according to tests carried out from independent and qualified laboratories. Tests realized with simulants are in respect to 2002/72/EC; 82/711/EC and amending 85/572/EC.

Some parameters, like foodstuff ingredients, closing process, volume jar, heat treatment, storage condition of finished product, could influence migration that may result higher.

Fillers and packers have the responsibility to verify that migration values remain within the limits required by the EU regulations. It's also their responsibility to carry out any necessary test to confirm that. Variability of parameters above reported is not under control of Tecnocap so we cannot be responsible for use condition and process/storage of caps.
